

March 15, 2011

From Diodes Incorporated:

Diodes wishes to extend its thoughts and condolences to the people of Japan and to those affected by the tragic earthquake and tsunami that hit northern Japan on March 11.

Diodes does not have any owned or outsourced manufacturing sites in the impacted area in Japan. All critical suppliers have been contacted and we do not presently anticipate any supply issues in the next 60 days. We will continue to work closely with all of our factories and subcontract partners to identify any concerns or impact with raw material suppliers in Japan, and will address these quickly to ensure the continuity of supply to our customers.

We will update as further information becomes available from our supply chain.

Thank you and Regards,

Mark King
Sr. Vice President of Sales & Marketing
